UMBRELLAS & CUSHIONS

HIGH QUALITY CONTRACT UMBRELLAS AND CUSHIONS

FLEXIBILITY IS OUR GREATEST STRENGTH™

18
EDITION

BUILT TO LAST

FiberBuilt Umbrellas & Cushions is dedicated to manufacturing state-of-the-art fiberglass ribbed umbrellas for use at hotels, apartment complexes, condominiums, country clubs and restaurants as well as residential applications and many other hospitality locations requiring contract quality products.

- Our innovative fiberglass rib construction ensures strength, resilience and durability.
- We have developed a full line of contract quality umbrellas that hold up to the harshest weather conditions - intense sunlight, high winds, salt air and driving rain - and will not decay or lose their shape.
- Our flexible fiberglass ribs absorb wind gusts without breaking and last four to five times longer than traditional steel or wood ribbed umbrellas.
- For its inherent strength and longevity, the standard canopies of most of our umbrellas and cabanas are made of marine grade fabric.
- Our new Euro Collection was designed to address the needs for large scale and cantilever umbrellas that provide significant shade, have a uniquely contemporary look, and provide an architectural element to your outdoor space.
- FiberBuilt's cushion division manufactures high quality cushions and pillows. We offer a wide selection of standard and custom products that are durable, comfortable and fashionable at competitive prices with prompt lead times.

For the latest information on umbrella styles, fabrics and options as well as replacement cushions, visit our website www.fiberbuiltumbrellas.com.

A close-up photograph of the fiberglass rib structure of an umbrella. The ribs are made of a light-colored, textured material and are shown in a curved, overlapping arrangement. The background is a light, abstract pattern of overlapping circles and lines.

FLEXIBLE FIBERGLASS RIBS

10 ft Octagon Edge

10 ft Square Edge shown with Custom Base

EDGE

EURO COLLECTION

The Edge cantilever umbrellas sport clean lines, a contemporary feel and a touch of European panache. Unique features include the easy open lift design, the 80° inclined aluminum pole and a 360° rotation. Coupled with the multiple angles to which the canopy can be set, this chic style provides all day shade.

- 360° rotating pole and canopy
- 8 rectangular fiberglass ribs
- 80° forward-leaning inclined pole
- Platinum powder coated aluminum, stainless steel hardware and nylon accessories
- Non-vented canopy is standard
- Canopies are made of furniture grade, solution dyed acrylic. Tops are also available in COM. See pages 47-51.
- In horizontal position, canopy clearance is 77". In fully tilted position, total height is 150".
- Cast aluminum hub
- Stainless steel latch to lock ribs
- Accordion-fold canopy closure and covered ribs
- Umbrella and Base sold as a set

BALI

EURO COLLECTION

The elegant shape of the canopy and gently curved pole emulate the tranquil and expansive natural beauty of an open leaf. The canopy can easily be raised along the entire length of the pole. The pole itself rotates 360° so that ample shade can be provided in any direction throughout the day.

- 360° rotating heavy duty curved aluminum pole
- Canopy can be raised and locked in position anywhere along the length of the pole
- 9 fiberglass ribs
- Anodized and powder coated aluminum structure
- Canopies are made of furniture grade solution dyed acrylic. See fabric selections on pages 47-51. Tops are also available in COM.
- Curved Pole Height - 7' 5"
- Overall Width from Back of Pole to fully extended Canopy - 13' 10"
- Leaf-shaped Canopy Height - 9' 10"
- Leaf-shaped Canopy Width - 9' 10"
- Dual handled, manual lift
- Draw string, tension-based opening
- Telescopic Pole
- Umbrella and Base sold as a set

VENICE

EURO COLLECTION

This large scale umbrella is available in two sizes - 16' and 20' squares - that provide shade to either 256 or 400 square feet, respectively. Canopies are manufactured with double, sewn-in vents to provide excellent wind control. The heavy duty base affords a stable and complementary foundation to this imposing shade structure.

- Telescopic opening and closing system with lift rod
- 8 rectangular aluminum ribs
- Carbon powder coated finished aluminum and steel structure with nylon accessories
- Steel cross base structure for (4) 19"x 19" concrete filled, molded fiberglass tiles with handles
- Double, sewn-in vent with storage ties standard
- Canopies are made of furniture grade, solution dyed acrylic. See fabric selections on pages 47-51. Tops are also available in COM.
- Custom top options include valance, alternating panels, banding and logos. See page 33 and 35.
- Umbrella and Base sold as a set

CANTILEVER

When your outdoor dining area would function better with an offset umbrella, our Cantilever model will provide the coverage you need without the interference of a center pole. These double vented, aluminum frame contract grade umbrellas are available in a wide array of fabrics to compliment any decor. Our 360 degree rotating Cantilever umbrella features a smooth-glide trigger lift mechanism and a foot activated rotator to provide 100 square feet of comfortable shade.

- 360° rotating pole and canopy
- 8 rectangular aluminum ribs
- Bronze finished aluminum frame and fittings
- Trigger lift with crank
- Steel cross base for (4) 80 lb. granite tiles
- Double, sewn-in vent and storage ties are standard
- Canopies are made of furniture grade, solution dyed acrylic. See fabric selections on pages 47-51. Tops are also available in COM.
- Custom top options include valance, alternating panels, banding and logos. See page 33 and 35.

13' Octagon with double vented canopy

DIAMANTE

PRESTIGE COLLECTION

The largest of our Prestige FiberTeak™ umbrellas, it features a one piece, 2 1/2" diameter pole with a .125 wall thickness aluminum core and our simulated wood finish. For freestanding use only, all have 3/4" diameter ribs and provide shade coverage with canopy sizes up to 13' octagon or 10' square. Optional double vent or Aruba canopies are excellent for locations that experience high winds.

- Fiberglass ribs with molded nylon joints and end tips
- FiberTeak™ finishes on poles and finials simulate the look and feel of real wood
- The poles are made with heavy duty aluminum cores and a protective, textured fiberglass coating for excellent durability
- All rib, finial and hub colors coordinate with the pole finish color except for Aged Teak which has white ribs and hubs
- Stainless steel hardware
- Single sewn-in vent and storage ties are standard on most sizes. 13' Oct and 10' Sq come with Double sewn-in vents and storage ties.
- Custom top options include the Aruba extra large vent, double vent, valance, alternating panels, trim, banding and logos. See pages 33-35.
- Canopies are made of marine or furniture grade, solution dyed acrylic. See fabric selections on pages 45-51. Tops are also available in COM.
- Pulley & Pin lift is available in place of Push Up & Pin. When ordering change the end of the model number from PU to PP.

AUGUSTA

PRESTIGE COLLECTION

This Prestige model features the patented FiberTeak™ simulated wood pole with a 1 3/4" diameter, one piece .125 wall thickness aluminum core, three woodgrain finish choices and 3/4" diameter fiberglass ribs. This structural integrity coupled with the warm wood look is more durable than actual wood umbrellas as they will not warp, check or split.

- Fiberglass ribs with molded nylon joints and end tips
- FiberTeak™ finishes on poles and finials simulate the look and feel of real wood
- The poles are made with heavy duty aluminum cores and a protective, textured fiberglass coating for excellent durability
- All rib, finial and hub colors coordinate with the pole finish color except for Aged Teak which has white ribs and hubs
- Stainless steel hardware
- Single sewn-in vent and storage ties are standard on most sizes. 10' Sq come with Double sewn-in vents and storage ties.
- Custom top options include the Aruba extra large vent, double vent, valance, alternating panels, trim, banding and logos. See pages 33–35.
- Standard tops are made of marine or furniture grade, solution dyed acrylic. See fabric selections on pages 45–51. Tops are also available in COM.
- Pulley & Pin lift is available in place of Push Up & Pin. When ordering change the end of the model number from PU to PP.

PLASTIC BASES

For residential, in-table use only with 7 1/2', 8' and 9' umbrellas

- Available in 3 colors
- Dimensions: 16" diam x 9" overall height
- Bases ship empty
- Weight: 35 lbs filled with water, 50 lbs filled with concrete
- Accommodates 1 1/2" pole
- Compact shape works well under most tables
- Includes molded handle

RESIN BASES

For residential, in-table use only with 7 1/2', 8' and 9' umbrellas

- Available in 3 colors
- Dimensions: 22" diam x 12" overall height
- Bases ship empty
- Weight: Fillable to 90 lbs with sand or concrete
- Sleeve accommodates up to a 2" pole
- Includes molded handle and roller

CUSHIONS

Our expert production staff will create high quality cushions that will restore the look and comfort of your outdoor furniture.

Replace worn, frayed or faded cushions on your existing chaises, chairs and benches or add new throw pillows, pool pillows, seat pads and cushions.

Cushions are available in a wide variety of standard sizes. For custom cushions, simply provide us with a sample or template of your existing cushions or pads and we will produce pieces in matching sizes.

Consult your representative, visit our website or contact the factory for additional information.

- All cushions are manufactured with high quality production methods to give each cushion the perfect comfort and loft
- Multiple thicknesses and a limitless array of shapes and sizes are available
- Fill: Polyester fiberfill, densified fiber, standard outdoor foam, reticulated foam and duralastic fill
- Fabrics: Available in a variety of grades from polyester to acrylic to COM. See pages 47-51 for furniture grade acrylics.
- Welts: in self or contrasting colors
- Cushions can be secured to furniture by standard fabric ties, Velcro tabs or fabric covered elastic
- Chaise Cushion options include headrests and hoods to attach over top of frame
- Custom details and options, such as notching and tufting, are available

BULLNOSE CUSHIONS

The contemporary form of these cushions have a waterfall edge and can be used with a variety of furniture styles to create a softer profile.

CUSHION FILL OPTIONS

RETICULATED FOAM

Long lasting comfort with quick drying capabilities. Dries easily after exposure to rain or other forms of moisture and humidity. The open cell design provides maximum water drainage and air circulation allowing cushions to be back in service quickly after being wet.

STANDARD OUTDOOR FOAM

Soft, comfortable and budget friendly. The best application for this foam is in dry climates or protected outdoor settings, such as covered patios and sunrooms.

DENSIFIED FILL

Compressed fiber filling is economical and has a low water retention level. It drains fast and dries quickly, depending on the present weather conditions at your outdoor setting.

DURALASTIC FILL

Revolutionary fill material that lasts longer than polyurethane foam. It is breathable and does not hold water. It drains fast and dries quickly. Good for the environment and can be recycled up to 5 times.

CUSHION CONSTRUCTION

Our standard construction method provides a Dacron wrap around the foam core for shape, loft and comfort.

TO AID IN THE DRYING PROCESS: for all styles and fills, unzip the cushion and drain excess water and stand cushion on its side to dry. Once dry, close zipper.

PRODUCT WARRANTIES

UMBRELLA WARRANTY

FiberBuilt Umbrellas & Cushions warranties our two piece fiberglass ribbed Garden, Patio, Terrace, Market and Beach Umbrellas, and all wood umbrellas, as well as all bases, cabanas and upholstery work for a period of one (1) year from the date of purchase, to the original purchaser, against defects in materials and workmanship. Additionally, fiberglass support ribs on our Market and 8-rib Beach Umbrellas are warranted for five (5) years from the date of purchase. Our Prestige Collection Umbrellas (Augusta, Bambusa, Bridgewater, Diamante, Lucaya, Nitro, Oceana, Palm and Riva) are warranted for a period of five (5) years from the date of purchase, to the original purchaser, against defects in materials and workmanship. Fiberglass support ribs on all Prestige Collection Umbrellas are also warranted for five (5) years. Our Euro Collection Umbrellas (Bali, Edge and Venice) are warranted for a period of two (2) years from the date of purchase, to the original purchaser, against defects in materials and workmanship. For the warranty to apply, all umbrellas must be secured in a properly weighted base.

Though our fiberglass ribbed umbrellas have successfully passed wind tests over 50 miles per hour, FiberBuilt Umbrellas & Cushions does not recommend allowing umbrellas to remain open during storms or strong winds. Customer is responsible for taking the umbrella down when winds reach unsafe conditions. Normal care and maintenance of products is required to insure years of problem free use.

Damaged umbrellas should be immediately taken out of service. This warranty does not cover the umbrella pole, crank or tilt, normal fading of fabrics and finishes and chemical stains. This warranty does not cover any damage due to acts of God, abuse, misuse or vandalism incurred to the umbrella after purchase, nor does it cover customer's own material. For warranty to apply products must be properly cared for and maintained. Modifications made to the product after production may void warranty. This warranty does not provide coverage or reimbursement for loss of use, time, inconvenience or other damages resulting from any defect in the product. To find out more about our warranty or to file a claim, please contact our customer service department at: 866-667-8668. No returns will be accepted without prior approval.

TILT UMBRELLAS ARE NOT WARRANTED IN COMMERCIAL APPLICATIONS.

FABRIC WARRANTY

Fabric options offered vary by product. Umbrella canopies made from Outdura or Sunbrella fabrics are warranted from the fabric mill against light fastness. This is a limited pro-rated warranty provided directly from the fabric mill for a period of five (5) years for Sunbrella furniture grade fabrics and for a period of ten (10) years for Outdura or Sunbrella marine grade fabrics. This warranty covers the fabric becoming unserviceable because of loss of color or strength from normal exposure conditions including sunlight, mildew, rot and atmospheric chemicals. It does not cover labor and installation supplied by FiberBuilt Umbrellas & Cushions or any other dealer. In the event that your fabric fails, please contact us to submit a claim and for further details. All fabric must be properly maintained and cleaned regularly for the warranty to be effective. Spun Acrylic, vinyl coated weaves and select marine grade fabrics do not carry an additional warranty.
