

FiberBuilt's booth at the CMAA Expo featured multiple valance options on several popular umbrella styles - Lucaya, Riva, Augusta and Phoenix.

The color scheme of the canopies, cushions and pillows attracted the Club Managers. The canopy design options provided ideas on how to make outdoor areas even more attractive.

Thanks to everyone who attended this year's Expo and learned how FiberBuilt's shade products combine the durability you've been looking for, the functionality you require, and the fashionable styles that will enhance your outdoor dining, pool and lounge areas.
