

COOPERATOREVENTS SOUTH FLORIDA EXPO

FiberBuilt is proud to serve the HOA and Condo community by providing durable, fashionable and budget-friendly shade products and replacement cushions.

At this year's Cooperator Expo in Ft. Lauderdale, the HOA management companies and board members from HOAs, condominiums and apartment complexes were attracted to the models we featured with canopies designed for wind management. As a Pompano Beach-based manufacturer we understand the challenges of South Florida's gusty weather, so we offer a variety of canopy styles and options that are made to hold up to this environment. That's just one of the features that we'll take into consideration when we manufacture your next umbrellas.
