UMBRELLAS & CUSHIONS

at

hd expo+
conference

What a great show!

Attendees were drawn to our new umbrella models, bases, cushion capabilities, and design options. Especially popular were our new Double Tier umbrella, our patented Flight umbrella, and the opportunity to customize canopies with scalloped valances.

If you didn't have a chance to speak with us at the show, call your local rep or our factory and we'll be happy to answer any questions you may have, recommend models best suited to your location and shade requirements, and provide a quotation for the items that will enhance your outdoor dining, pool or lounge area.
