

This year's show in Atlanta was so exciting!

The attendees were tremendously engaged and our Specified Agents team made the event even more special by offering two prizes to attendees who spent time learning about products featured by their manufacturers. FiberBuilt was pleased to be participate as one of sponsors of the drawing and we're delighted that so many attendees appreciated the potential for design creativity our custom capabilities allow for.

Congratulations to Lisa Stevens from Carver & Associates and Sophie Adler from Blur Workshop! We hope the time spent at the booths will prove as profitable as the drawing. It was great to getting to speak with both of you.
